FORWARD

After a vacation, so to speak, of a period of about two months, I have decided to again enter the field of weekly newspaper publishing. The Community Press, of which the present edition is the first, is the outcome of a vast amount of consideration and investigation, and due to the fact that it is a new publication, it is a very thorough analysis of the situation before entering upon a venture of this kind at the present time. It is the intention of the publisher to build up a paper as though it would be possible to continue the publication of a newspaper of the type of the Community Press, and also to disseminate public information, and also to disseminate public information, and also to disseminate public information.

The Community Press, therefore, is the outcome of the above considerations, and it is the intention of the publisher to build up a paper as though it would be possible to continue the publication of a newspaper of the type of the Community Press, and also to disseminate public information, and also to disseminate public information, and also to disseminate public information.

Twenty years is a long time, and many changes have taken place. The first newspaper was founded in 1910, and it was the intention of the publisher to build up a paper as though it would be possible to continue the publication of a newspaper of the type of the Community Press, and also to disseminate public information, and also to disseminate public information, and also to disseminate public information.

The Community Press, therefore, is the outcome of the above considerations, and it is the intention of the publisher to build up a paper as though it would be possible to continue the publication of a newspaper of the type of the Community Press, and also to disseminate public information, and also to disseminate public information, and also to disseminate public information.

Pioneer of Killam District Called by Death following an Operation

Mr. John A. Coates, one of the pioneer settlers of the Killam district, died on Monday, April 15, following an operation at the General Hospital in Edmonton.

The deceased, whose maiden name was Mrs. Mary Coates, was born in 1865, and was 64 years of age at the time of her death. She was the wife of the late Mr. John Coates, who was a well-known settler in the Killam district.

Mr. Coates was a member of the Presbyterian Church, and was a very active member of the same. He was a very kind and generous man, and was very popular in the community.

He is survived by his wife, Mrs. Mary Coates, and by two sons, Mr. and Mrs. John Coates, who are both well-known settlers in the Killam district.

The funeral will be held on Thursday, April 18, at 2 o'clock, at the Presbyterian Church in Killam. The interment will be in the cemetery.

THERE ARE AT LEAST TWO SIDES TO EVERYTHING

There are at least two sides to everything, and it is the intention of the publisher to build up a paper as though it would be possible to continue the publication of a newspaper of the type of the Community Press, and also to disseminate public information, and also to disseminate public information, and also to disseminate public information.

Manti-bu states that the conference at which a policy was expected to be outlined for Manti-bu is possibly being held in Khartoum at any time next month.

The original date April 20 was found not to be convenient for all officials concerned if, and when they were to be held in Khartoum. Their reason will be preliminary to the Dominion conference, at which the province will be represented. Such a conference is planned for mid-summer at Ottawa.

Government To Complete Legislation On Resources

Before Considering Budget

OTTAWA. On Legislature dealing with the return of the natural resources to the waters province will be dealt with by parliament before the end of the month. The decision was stated by Premier Mackenzie King in a speech in the House of Commons last night. The prime minister said that the government is determined to dispose of this legislation, which has been passed by the House of Commons, as soon as possible.

The bill, which was introduced by Minister Mackenzie King, is designed to give the federal government the right to acquire and dispose of the natural resources of the province of Ontario. The bill is expected to be passed by the House of Commons in the next few days.

The issue of Commonwealth had been a subject of discussion for some time, and it is now being brought to a head. The government is determined to dispose of this legislation, which has been passed by the House of Commons, as soon as possible.

The date when the budget will come down depends, of course,

on the progress which is made with this legislation. The prime minister made it unambiguous that the government is determined to dispose of this legislation, which has been passed by the House of Commons, as soon as possible.

There is also the possibility of the introduction of a new bill, which might be a subject of discussion for some time, and it is now being brought to a head. The government is determined to dispose of this legislation, which has been passed by the House of Commons, as soon as possible.

ing the trade why should from Asia, we ask, is why Japan, and China particularly have met in the past for the goods they made the progress they should have made.

We in America cannot transact business with Asia when it takes a month to get a reply by mail, or when it costs us a great deal to send by cable.

Japan awakens with life, across the island you see the passing village after village, the city, and the roadways with people and animals.

Commerce of trade with Europe is brought nothing but stagnation to Asia because Europe's thought is industrial and political. An industrial thought is social and economic. The latter is what Asia wants and needs.

Canada and United States can improve and enlighten Asia, and will reap the benefit in return of Europe's industrial civilization was to spread

labor and pay a wage and buy a domesticated silver but having no use for the gold standard herself, and was in fact to GET all they could out of Japan and China and India, and GIVE it, return as little as they could.

The business philosophy of Canada and the United States is the philosophy of Henry Ford of paying as much

It seems to me as plain as day, that ten years of trading with America and the United States will put Asia on her feet socially and economically in less than a hundred years of trading with Europe.

Java, to my mind, is the Garden of
Eden of the world. Here you have a
tropical island with three or four times

the size of Vancouver Island, and containing between 35 and 40 million people. Java grows every conceivable kind of fruit and flower and tropical vegetation: rice, sugar, coconuts, rubber, tea, clove, spices and tobacco. It is only in fruits and flowers and timber, however, in tropical Java.

rich and vast. It is true that in terms of the United States, the newspaper business is \$3,500,000,000 in Canada. But in Latin America, the newspaper business is the largest of any business. One of our largest companies is the largest enterprise in the world. It has two great corporations and more than \$1,000,000,000 of the largest newspaper firms here is held by Canadian companies. Canada is the largest father of any great, leading abroad the work of its experts. It has a large number of great European powers, with a total value of nearly \$200,000,000,000, which we, in turn, buy more than \$500,000,000 worth of goods from her.

After the war Canada suffered a depression such as we did, and went through several hard years. But these were followed by four or five years of boom.

dro-electric power and industry generally. Although Canada has only one-twelfth the population of the United States, she is indeed a powerful neighbor, and one whose bargaining ability is extremely great—far out of proportion to her population. One need mention only her

the raw materials for paper making. Then, too, the Chairman seems to have very real genius in building up financial organizations; their banks and insurance companies attest to that.

Canada's population is sure to increase indeed, we are adding to it constantly. There is migration by't's ways, an interchanging of population at a great scale that can only make for mutual respect and good will. In the case of Canada and the United States, there seems to be a mutual respect or attraction in one by the other. In this instance, business victories carry peace instead of war

Men's muffled lines are featured in a patterned chiffon of soft green coloring.

It emphasizes the normal waistlines through horizontal inverted pin tucks.

The low of plain cups placed at the side help accent the femininity of line.

The low draped circular Soutache of the skirt increases a slender wrapped arrangement at the front.

The skirt falls softly over the arms.

 Don't forget to put up your birds for the poultry show which is taking place the first week of May. You can win the prize money by giving your winners and the number of birds you have in that class. The deadline for entries is the 15th of April. You must date to bring them in.

John Collins of this city, and the secretary of the Canadian Poultry Service of the Canadian Food Service, the Great War and a veteran of the World War, is the secretary for these exhibitions in the provinces of the Canadian Poultry Service. He is a well-known poultryman and is an outstanding speaker and the League is indeed fortunate to have him in person. His presence will be a great help to the poultrymen of the province.

7270 Rust Control

One of the most useful publications which has been published by the Great Department of Agriculture recently is the first in the series of studies in plant diseases being carried out under the direction of the Hon. Lord Rotherham. This study deals with "Control methods for diseases of cereals, forage and fibre crops." It takes the latest findings of the Dominion Research Laboratories in plant pathology at Winnipeg, St. John's and Edmonton. The volume deals with insects and only gives a few hints on the control and eradication of cereal diseases, but some recommendations for the treatment of a wide variety of species of diseases. The crops dealt with include wheat, oats, barley, rye, corn, clover, alfalfa, and lucerne.

**Fifth Biennial Conference Of
British Empire Service League
To Be Held In Canada In 1931**

Growth Of Prairie Provinces

Saskatchewan and Saskatchewan have made gains in population and area over the last 20 years.

In just 20 years since the province of Alberta and Saskatchewan were created, the total population of Alberta was 186,000. It is now about 620,000. Saskatchewan had a population of 193,000 in 1920. Now it has nearly 700,000 people. The total area under cultivation in Alberta 20 years ago was 600,000 acres; in Saskatchewan, 2,000,000 acres. In 1936 Alberta had 2,000,000 acres of crop and pasture land. Saskatchewan 30,000,000 acres. The total area of the two provinces is now 1,000,000 square miles.

Representatives of all the returned soldier organizations of the Empire will meet in Canada next August at the 1936 Imperial conference of the British Commonwealth in Ottawa. At this year's meeting, which he held, it was announced at Ottawa, by Lieut.-Col. L. R. LaFleche, Canadian president of the Canadian Legion.

Led by Earl Jellicoe, admiral of the fleet and jointing officer of the Royal Navy, the conference will include representatives from the United Kingdom, South Africa, Australia, New Zealand, and from every corner of the far-flung Empire.

The making of the conference, said LaFleche, said the only definite

New And Unique Mineral Found In Alberta May Have Far Reaching Possibilities

Far Reaching Possibilities

Crisis Feeding Pays

Many Good Reasons Why Crisis Feeding of Poultry is Profitable
None very good reasons why crisis feeding poultry pays are supplied by the Division of Poultry Husbandry of the Dominion Experimental Farms, among which are the following:

Crisis feeding pays because it produces the milked grain which brings

Long and nonoverlappative laboratory investigations are expected shortly, to add a new mineral to the roster of the Dominion products. Though research was carried on in university and industrial laboratories in the east, principally Toronto manufacturers is to be chiefly in the west.

The mineral is vermiculite, or as it is more commonly known, nonolite

the world's best. "It's not just the quality of the feed, but the way it's made," says a representative of the feed company. "It's a blend of high-quality ingredients, and it's made in a way that's easy on the stomach." The consumer wants milked poultry, but because of the high cost of feed, the feed alone gives him assurance of the quality which satisfies; it gives him the best value for his money in its use. The feed is made in a way that's easy on the stomach, the owner breeds, feeds and swells, the kind of feed in reality does to it.

To Produce Better Cattle

J. C. Mitchell, of Oklahoma, finds, with Shiloh, that the feed alone does not really transmit best. Cattle experiments are supported by the Bureau of Animal

Michigan, of Oakland, Southwestern, does not expect to compete for further business at the world's grain show in Nagasaki. The company is concentrating its efforts on the Japanese market for so-called educational work among Southwestern farmers with the stimulation of a campaign for the sale of the show.

Although Mr. Mitchell claims that there is a great deal of criticism in producing better grain than has ever been produced before, he has rated in the past that from a financial standpoint the show is a success. It does not offer much inducement to the average farmer.

Weathering Bitter

At Washington, The mineral was used to high temperature insulation for the pipes and the boiler pipes and boilers.

Tests made by Prof. G. R. Anderson, of the University of California, demonstrated that asbestos fibers destroyed mineral's ability to absorb sound. The mineral was used in it in the form of a loose filling in the walls of a laboratory, asbestos one quarter wood pulp. His research shows that, at a distance of 10 feet, a sound absorptive coefficient of 30-40, a sound absorptive coefficient of 30-40, a sound and non-technical words, it took up sound and noise to a degree that makes it too feasible to use in the instance in buildings. Since pyrophyllite is, at the same time, reporting the

The Line Up To Cape Town

The trail load of 10-11 has not reached the right side of the line for future developments of air route with heavier (than-air) machines. Early in the year, the first of the great airway across Africa to Cape Town will be opened and good machines will be used. The planes, multi-engine, are the only way to get in operation.

A Turnover Tax

Financial journals throughout Canada are discussing probable ways and means whereby the Dominion Government will raise the revenue required to carry on the services and administrative responsibilities of the Prime Minister, meet the charges on the public debt, and balance the national budget. The same question is recurring the clear situation of the Prime Minister and his cabinet, and how long will demand consideration by the parliament and the people generally.

It is admitted in all quarters that the Dominion will face a deficit in the operation of government for the year 1930-31, that instead of the national debt being reduced it will be increased in view of this situation, efforts will be made to secure more revenue from taxation or to expand the budget. The same question is recurring the clear situation of the Prime Minister and his cabinet, and how long will demand consideration by the parliament and the people generally.

It is estimated that the Dominion's deficit this year will be in the neighborhood of \$150,000,000. There have been heavy outlays in Canada during the year, but the revenue has not increased proportionately. their significance can be realized. To enable them to be more easily visualized it may be stated that this planting stock has been sent out to over 100,000 applicants and a careful review of the returns of the Forest Service inspectors shows that in spite of all opposing causes—fire, flood, insect, etc.—the planting has been successful in many places.

of the Interior at Indian Head, Saskatchewan, and those interested will receive full information as to the plan on application.

Edmonton Enters Exhibit

Edmonton, Alberta, has been selected to represent the province at the World's Fair in London, England, in 1925. The exhibit will be a large and comprehensive one, showing the progress of the province since 1905, and the various industries and resources of the province.

sects, and night—80 per cent. of all the plantations set out on the Canadian prairies under this plan in the last thirty years are now flourishing and vigorous. These thriving plantations cover 23,000 acres or 90 square miles. The area covered might be pictured as a state of forest, a mid-

stretching from the western limits of Pivnig to the eastern outskirts of Pärnu. Since a strip would be small in the vastness of the peninsula, but a comparison like this would not be fair because the plantations are strategically placed for the purpose

There is another point that must not be forgotten. The plantations re-

corded are enthusiastic for which the planting material was sent on 1 from the Forest Nursery Stations of Indian Head or Sutherland, but once a plantation is established it becomes a source whence seeds and cuttings are drawn to start plantings on other farms in the neighborhood. There is

has been found that the work done on with increased pace with each new windbreak set out. The main spring of the tree-planting movement is to increase the production of the homestead and the comfort of the dwellers in the farm home. That production

Of late years there has been a marked tendency toward the diversification of the products of prairie

markets, particularly during the store cattle season. They responded readily to feeding, making good gains. It is noted that the presence of horns, absence of conspicuous brand marks, have a bearish effect on prices. The older cattle in the shipment proved disappointing, indicating that the market

of tender vegetables and bush and tree fruits has resulted not so much in adding to the variety of commodities the farmer has to sell as in increasing the number of things he has for his own use. The strawberries, raspberries, tomatoes, melons, plums, and peaches are sold locally and are essentially for your stock. Another thing apparent is that the Old Country buyers place a premium on apparent quality. Some of the last shipment of three-year-olds to Manchester netted buyers \$67.75 apiece and for slaughter and evoked favorable comments on their quality.

and apples now grown by many prairie farmers in their tree-sheltered gardens, are not largely sold, but they improve the dietary and increase the health and pleasure of the farm dwellers. An analysis of the reports of the inspectors showed that on the 7,600 farms visited during the year, 1,000,000 bushels of apples were grown and sold. The average yield was 12 bushels per acre. The average price realized was 10 cents per bushel. Prices realized were not as high as hoped for in some cases; they were in several instances better than offered at home.

6,800 had walled-in gardens. 2,700 had plots of small fruits, and 400 carried orchards containing fruit-bearing trees. A pithie lived year-round in years gone by was, "Grow another five acres of wheat and buy your vegetables and fruit," but the returns of recent years show that the farmers

Respect For The Law

Very entertained by people with respect to the majority of the law and to be divided into two main classes: those who respect the law of the country as having been enacted primarily for the protection of the rights and liberties of the people, and the second group, those who act as if they considered all laws as infringing upon their rights and a denial of what they think their "democratic" rights.

Respect in a large and general sense, the former view is substantiated and upheld by the majority of the people of the United States. Public opinion is very largely represented by the majority of the people of the United States. The majority of the people of the United States are not only law-abiding, but they are also patriotic. They are not only law-abiding, but they are also patriotic. They are not only law-abiding, but they are also patriotic.

Canada's Fine Record

Through the history of the Dominion of Canada, the record of the Canadian people is one of the most remarkable in the world. The Canadian people have shown a high degree of loyalty and devotion to the law, and a high degree of respect for the rights and liberties of the people.

Developments in Transportation

(Special Article)

In a previous article on the above heading the fact was emphasized that the motor bus and freight and express trucks were offering increasing competition to the street railways with the inevitable outcome that the lines in revenue obtained by the railways would require immediate action. Their aggregate losses are generally estimated by factors who must rely upon the railways to transport their products and regular passengers.

The ability of the railways to finance their operations and to continue programmes of improvement in future must necessarily be determined by the public. That fact must be recognized. The motor bus and freight and express trucks, on the other hand, are not required to keep up the highways over which they operate. The public, for each person they carry, pays annually with each cent of revenue and expense. As a result they are large employers of labor. Their aggregate losses are generally estimated by factors who must rely upon the railways to transport their products and regular passengers. THESE HARD TIMES

"The hard times and economy of the present day have brought about a new situation in the transportation industry. The motor bus and freight and express trucks, on the other hand, are not required to keep up the highways over which they operate. The public, for each person they carry, pays annually with each cent of revenue and expense. As a result they are large employers of labor. Their aggregate losses are generally estimated by factors who must rely upon the railways to transport their products and regular passengers.

Amendments To Coast Shipping Laws Urged

Mr. Charles B. Smith, of the Canadian Maritime Commission, has urged amendments to the coast shipping laws. He stated that the present laws are out of date and that the industry is suffering as a result. He urged that the laws be amended to reflect the current situation and to provide for the future.

What is the solution?

What is the solution? The answer is simple. It is to provide for the future. The industry must be able to meet the challenges of the future. This can be done by providing for the future. The industry must be able to meet the challenges of the future. This can be done by providing for the future.

Another question is: Should not these commercial enterprises, motor bus and freight and express trucks, be made subject to the same regulations as the street railways?

Another question is: Should not these commercial enterprises, motor bus and freight and express trucks, be made subject to the same regulations as the street railways? The answer is yes. They should be. They should be made subject to the same regulations as the street railways. This would ensure that the industry is fair and that the public is protected.

Taking Canada's Census

The dramatic task of "counting men" in Canada, or, in other words, the enumeration of the census of the Canadian people, takes place in the month of June. It is a big and fairly expensive job requiring the services of a vast army of men, and after their initial work in compiling, tabulating and analyzing the returns sent in to Ottawa by their respective provinces and municipalities.

The census is a very important factor in the life of a nation. It is the only way in which the government can know how many Canadians there are, and what they are doing. It is also the only way in which the government can know how much money it needs to spend to run the country.

While the enumerators are busy "counting men," they are also gathering other important information. They are finding out how many people there are in each province, and how many are in each city and town.

These leaves for Newfoundland, North Sea, and other parts of the world. They are also gathering information about the health of the people, and about their occupations.

The Census of Canada 1931

In the opening weeks of June every family and every home in Canada will be visited by a representative of the Government for the purpose of taking the seventh census of Canada.

The Census is really a stocktaking. That is, it provides the information which the Government needs for the purpose of making the development of the country to formulate progressive policies for the happiness, comfort and prosperity of our people.

Canada and World Disarmament

During this present period of world-wide human depression and strife, great people are being thoughtless that the only way out will be another great war, that such a struggle will be the ultimate answer of the world's suffering. Such a statement should be the last to pass the lips of any person. Another war would be a curse to the world and the world's suffering people.

There are many who believe that the economic trade of the world is being destroyed by the war. This is not true. The world's trade is being destroyed by the war. The world's trade is being destroyed by the war. The world's trade is being destroyed by the war.

W. M. S. MEETING
HELD AT MILLAN

The July meeting of the Kilfin W. M. S. was held on the 14th at the Millan. The W. M. S. entertained the Women's Guild of St. Andrews, of whom a large number were present.

The meeting opened in the usual manner with the President, Miss Hunt in charge. Devotional exercises were conducted by the President. The choir sang "The Lord's Prayer" and "There Must Come As A Troubadour."

The topic chosen for the evening was Mission Work among Orientals in Canada. Mrs. Macfarlane, who was in charge of the work, is being done along this line in the cities, Vancouver and Montreal.

Three of the members presented little dialogues entitled "The Slaves and of Persecution."

After the meeting closed, a social hour was enjoyed and a delightful hour spent over the tea cups.

A WARNING

WHEN YOUR eyes ache, sting or feel tired, it is your liver's warning—they are strain-
ing. If you are what you
eat, you will have that strain
and will have a complete
exhaustion of all your body

prevent a severe onslaught
through later on.

Mass Poisoning

Behaving more for a brief season, United States Ambassador Deane at London, England, describes the present economic situation in his country as being one of the most serious in the world.

What Ambassador Deane says is unquestionably true, but before the present economic situation in his country is a "mass poisoning" which he believes and which now has a crippling effect on all efforts to improve conditions.

Without going into details, we find that conditions in Western Canada this year are such as to induce poisoning. Thousands of farmers and their families are in dire straits because of widespread drought, which has made it impossible for them to raise crops and pasture for their stock.

No crop in sight for 1931 and added reason for fear for the future. They do not know when a drought crop or one that will be a success. The fact of poisoning what may be produced, however, added to the economic situation for a large section of our country, and it is a mass poisoning and stagnation in agriculture, with an almost cessation of purchasing power, has rendered conditions in Western Canada very serious.

But the situation and it would be the duty of the government to attempt to do so, or at least to encourage it. It is a mass poisoning, first among those who, even when everything is bright and sunny, always look upon the dark side of any picture, those who are not to be natural but to be cynical and fear-driven. But this is only one aspect of the mass poisoning, for besides the cynical and fear-driven, there are those who are not to be natural but to be cynical and fear-driven.

Without first ascertaining whether they are going to be sent either for shipment to the drush areas or for use on the farms where the feed is grown, straw stacks should not be burned this year," Hon. C. S. Bushnell, director of Agriculture, declared recently.

Referring to the general situation, the Minister said: "It may prove necessary to ship some of the wheat to the drush areas of feed in order to save the surplus of feed in the drush areas."

While they will lead to a mutually beneficial agreement between the Government and the agricultural community, the Hon. Minister of Trade and Commerce, stated recently.

He expressed the opinion that while high wheat prices were not likely to be maintained for a long time, it was probable that in eight or ten months there would be a material recovery in prices.

Negotiations are under way between a northern syndicate and the Government to ship a cargo of 1,000 reindeer to be delivered at Churchill next spring. The reindeer will be brought by boat to Vancouver and will be shipped across the continent to their new home about two months from now.

The chief business of the syndicate is expected to come from the reindeer which will be sold above by the cool hay route to Churchill.

In 1926 Mr. Turner was an instructor of languages at the provincial normal school in Saskatoon, and was sent to Greece to study the wheat and milk before going to Athens. He is at present touring the Dominion to give information on the wheat business conditions, and will return to Greece in November.

What Can you get without going after it?
EVERY BUSINESS MAN knows that business comes to the firm that asks for it through effective advertising appeals. Business is improving, people are buying more freely. At the same time, times are changing, and these changes who go after business will get it. Those who wait for business to "fall up" will not make so much headway as the more aggressive ones. The **Redevelopment Women's** in Hialeah, under the leadership of Josephine M. W. Haynes, are working on a number of other successful plans. The programs for the past year have been both interesting and instructive. For example, the women have been members of a standing committee. Among the speakers in the program were Mrs. G. P. Gower, Mrs. A. G. Andrus and Mrs. C. E. Mackay. Thinking in the future to make the Institute more of a social club, the Institute sponsored an air show at the Hialeah play and a recital by Miss Margee L. Margaret (now, a woman of letters, culture and education gave a most effective illustration of the material of the town and community.

Social service work was played a large part in the year's program. The Institute cannot have a very active social service department, as the personnel of the Institute has to be made to work a success. The country club

The baby clinic in which forty children of pre-school age were given medical attention was another important work covered. The members of the club served with thirty or thirty-five of the mothers, and the diversity of nourishment was explained for the children. Mrs. Ben Webster, a graduate nurse, assisted by Miss Betty Weber and Mrs. Herbert Webster, was responsible for the success of this work.

The annual social evening was another bright spot in the year's program. This coming year may see the first in the form of entertainment for the mothers.

A special meeting is called for Joseph Shattuck for the year's program will be in order then. With this for the year and a summer of work, the club will continue to be active.

—Theophilus T. Jones's Institute

The annual report of the Y. M. C. A. was held on Wed. evening at the Y. M. C. A. building. The report was given by Mrs. Miller presiding, and the following appeared in the usual manner:

Mr. Miller, president of the Y. M. C. A. for the past year had been a successful business man and was elected the Vice.

Mrs. Miller, the brother of the late Altona period, gave a splendid talk on the life of the Disciple Andrew, who was a man of great faith and courage. He was one of only three that were left alive in the instance he was bringing others to Christ.

Mrs. Smith introduced Chapter II of the Study Book, which dealt with the life of the Disciple Andrew, who was a man of great faith and courage. He was one of only three that were left alive in the instance he was bringing others to Christ.

The election of officers for 1932 then took place, with the following results:

President, Mrs. A. F. Miller.
Vice-President, C. C. Schweitzer.
Corresponding Secretary, Mrs. G. H. McKee.
Treasurer, Mrs. E. B. Clemens.
Recording Secretary, Mrs. M. M. MacLellan.

Temperance, Mrs. H. W. Scott.
Missionary Monthly, Mrs. H. H.

the officers of the past year for efficient service rendered. Meeting closed with Miraph Benediction. A delicious lunch and social half hour was then

KILLAN OLD TIMES' REUNION

The Old Timers of the Killan district held their tenth annual reunion and dance in the Jubilee Theatre on Wednesday, Dec. 2nd. One of the largest crowds to ever attend an old-timers get-together were present to dance the old familiar numbers such as polkas, three steps, minnows, schottisches, square dances, etc. to the music supplied by New Tena and His Family Makers, consisting of Mr. and Mrs. New Brown, Cliff Robinson, and Mr. Old Gummer, while Mrs. New Brown and Joe Rusicka assisted the orchestra with a few numbers during the evening.

After a tap lunch was served at the Killan home, a program was rendered by the Killan Old Timers' Association, Mr. J. A. Neely acting as chairman. Following is the program:

Vocal solo, Mrs. Robt. Rrdlin.
Vocal solo, Mrs. Ansell.
Step dancer, Mr. Don D'Arcy.
Step dancer, Mr. McLean, dress-1 in
blue.
Step dancer, Miss McPherson.
Step dancer, Miss Betty McIlvray.
Vocal solo, Earl Lake.
Trumpet solo, Hugh Roberts.
Vocal solo, with harp accompaniment, Cliff Robinson.
After the programme, dancing was again resumed and continued until he was again home the morning.

The Dayland Hawk Hawk on the Glahed Hockey Team on the 2nd day of January with a score of 22. A good as in attendance.

The Glahed night defense put the puck into the net through the house on the 2nd day of January with a score of 22. A good as in attendance.

The opposite team made a goal on the home team nearly which stopped at the blue line before it was stopped by the house.

The Hawk Hawk made several goals at the Glahed goal but it was always stopped by the house.

In the second period the Hawk Hawk made the goal nearly the house goal. Several men were stopped only to be hit by the house team and then the Hawk Hawk goal was stopped by the house goal.

The Hawk Hawk goal was stopped by the house goal.

In the third period J. Wiley ran for the tie with E. Marshall as a wide. He succeeded in getting a 50-yard line where he shot at the puck rebounded off the boards and Marshall's stick in the air. It fell in for a goal. At the end of the third period the score stood 2-1.

In the first five minutes of time playing Galahad scored a three man rush. Both teams were playing hard and on equal grounds. The teams switched ends after seven minutes of play. Lynam scored soon playing again. Lynam's person took a long shot from center and scored for the Black Hawks.

**Canadian Pacific President Issues His Annual Review of Economic Conditions
and the Outlook for Future Development and Progress in this Country.**

[illegible]

The success of the program will depend on the government's ability to control inflation and to maintain a stable exchange rate. The government has been successful in controlling inflation, but it has been less successful in maintaining a stable exchange rate. The government has been successful in controlling inflation, but it has been less successful in maintaining a stable exchange rate.

Production and export have increased. The export of Scotch whisky, Scotch cattle and dairy products have increased. The export of Scotch salmon has increased. The export of Scotch whisky, Scotch cattle and dairy products have increased. The export of Scotch salmon has increased.

"It would be a disaster for a nation who would lose its prosperity as to what is going to happen during the coming year. And yet I think it requires neither business nor second sight to justify the decision to attend the conference in relation to Canadian economic affairs. Important questions of our trade with Great Britain must be cared, and it would be a pity that the opening of the North-west Imperial Conference in this country will profoundly influence the course of Canadian economics over the next few years. The

It is an old saying of recent years brought much too mild. That one thing greatly to be desired is more business in government and less government in business. The period of economic stress has done more to prove the

The World Owes Much To Advertisers

OF US would be poorer if there were no
advertisers and magazines—power in
art, mind, comfort, culture,
entertainment have been called the "Four
pillars of life." If they are, they are wonderful
things—wonderful mirrors of the world's
artistic and cultural development.

It is advertisements which keep us informed
of what is being accomplished by the
world's best engineers, inventors, research
men and technicians in all lines of human
endeavor—in the fields of science, hygiene and
manufacturing, food production, medicine,
agriculture, domestic and personal service,
building materials and construction and
social economy, home economic and house-
hold sanitation.

If there were no advertisements in our news-
papers and magazines, we'd slip back—to the
low levels of life of 50 and 100 years ago. We'd
lose touch of life, more about its loss, lower our living
standards, be content with poorer machines, eat
coarser foods and wear coarser clothing, live
unrefined homes, do a vast amount of dis-
carded labor, wear ill-fitting shoes, see agi-
tators every where, have more illness, meet
with more accidents, have more tooth aches, and our
days would be very dull days indeed.

To blast out advertisements would be like blating
out the sun—the source of light and energy.

Be grateful to advertisers, and show your
gratitude by buying what they so faithfully
bring you to your attention.

And always remember that advertisers are the
world's workers and your true friends.

of Forestburg, passed away at his home, Ang. 14, 1904, at the age of 34, as a result of illness.

He was born in Utah on December 1, 1870, to Iowa, U. S. A. parents who were 12 months old. From 1878 to Martin died in 1884, at the age of 12 years.

Family, Baptist friends of Forestburg and Kilian, A. A. Swares and family, Grandma Grand and Alick, Paul E. Johnson and family, Mr. and Mrs. Nils Pettersen and family, and many others unmanned.

The large crowd present at the service and the abundant and exquisite floral contributions spoke of the high esteem the departed had enjoyed in the community.

Peace upon his memory.

OBITUARY

The funeral of Antoine, which was held at 10 a. m. on Wednesday morning from St. Joseph's church, was a large attendance. A great number were unable to gain admittance to the church. The pall was borne by Rev. P. M. John Capistrano, O. F. M., who also officiated at the graveside. About fifty cars followed the remains to the cemetery. The pall bearers were Paul Biederman and Martin Zander, Pastor Frederick J. Borgel, Fransen Marzette and Elmer Decker. Mrs. Irene Pfeiffer, a schoolmate, carried the cross which was adorned with a white garland.

I have now pointed out that with certain assumptions

everything you own can be taken for ransom; that if your annual meetings go ahead for pay before the tax is paid, that if you do not pay, you will be in trouble for you. I have shown the amounts of money you will lose by not paying this tax; that in reality you are paying for your own interests and that the only time to cancel a tax is before it is levied. I have shown that the law will fully consider all these things before depriving of this cop. I believe you should pay your local members, so he is in reality one of ourselves. I believe it is the duty of all outside agencies, as well as for their own interest, to allow you to keep the home fires burning and add that if it is possible for all these are closed up this year, you can come to the next annual meeting and suggest that the municipal tax be again lowered to practically nothing if you want to.

I will take the time to tell you what I think it is written. Your Council will recognize your financial condition. This is only a suggestion to help you to protect your own interests and to help you to help yourself after themselves. The present condition of affairs is not a depression; it is a collapse of our whole financial structure and it will not be rectified until the big inflation comes. It is as simple as the fact that the local community do what they can to protect themselves and their neighbors until the question of reconstruction is under way.

LIBERAL ASSOCIATION MEET AT KILLAM

A well represented and enthusiastic meeting of supporters and members of the Selkirk Constituency Liberal Association was held in the Recreation Hall, Killam, on Friday, September 23rd, at 8:30 P. M. A. D. 1952, with the president H. O. Thomas, Killam, in the chair.

The minutes of the previous meeting of the association held at Killam May 11th, 1952, were read by J. H. Sayers, of Killam and approved by the meeting.

The main purpose of the gathering was to select delegates to attend the Provincial Liberal Convention in Edmonton on Friday, October 21st, to elect a Provincial Liberal leader, and to review and endorse the Liberal platform to meet present conditions.

A nominating committee was appointed consisting of Messrs. J. H. Sayers, Killam, and W. McAlley, Villing, who have been working for the Liberal cause and alternates which were approved by the meeting.

The committee is composed of C. P. Purvis, Killam, and W. McAlley, Villing, and J. H. Sayers, Killam, brought in the following resolutions which were unanimously adopted:

1. It is hereby resolved that this meeting of the Killam Constituency Liberal Association, on September 23rd, 1952, go on record as having endorsed the platform of our National Leader, the Hon. Mackenzie King, and his associates and the platform of our Provincial Leader, the Hon. J. H. Sayers, Killam, and his associates.

2. Be it further resolved that this meeting go on record as endorsing the platform of our National Leader, the Hon. Mackenzie King, and his associates, and the platform of our Provincial Leader, the Hon. J. H. Sayers, Killam, and his associates.

3. Be it further resolved that this meeting go on record as endorsing the platform of our National Leader, the Hon. Mackenzie King, and his associates, and the platform of our Provincial Leader, the Hon. J. H. Sayers, Killam, and his associates.

4. Whereas on December 31, 1951, the public debt of Alberta amounted to \$67,000,000, and whereas on June 30, 1952, the public debt of Alberta had amounted to \$142,000,000, an increase of 110 per cent.

one of the small firms which may be extinguished at this time or may be public utility firms. We have too few large firms to support the province's financial needs. Considerable attention is being given to the problem of the public utility firms, but little or no consideration to the question of the public utility firms. The public utility firms are the only firms which are not subject to the competition of the private firms. Weddings

St. Elizabeth's Roman Catholic Church, Roseland, was the scene of a very pretty wedding on Tuesday, Oct. 25th, at 10:30 a. m., when Agnes Martha Hamel, daughter of Mr. and Mrs. C. J. Hamel, of Roseland, became the bride of Norman Macmillan, son of Mr. and Mrs. J. P. Macmillan of Strome. Rev. Father Murray officiated at the marriage and was the celebrant at the Nuptial High Mass which followed.

Entering the church on the arm of her father, to the strains of "Lohengrin" by Brahms, the bride, carrying a beautiful bouquet, made a charming picture. Her dress and her long hair were styled in the latest fashion.

John Hamel, of Roseland, and his bride, Miss Agnes Martha Hamel, were married on Tuesday, Oct. 25th, at 10:30 a. m., when Agnes Martha Hamel, daughter of Mr. and Mrs. C. J. Hamel, of Roseland, became the bride of Norman Macmillan, son of Mr. and Mrs. J. P. Macmillan of Strome.

A REMINDER

A few years ago thousands of Alberta farmers petitioned and worked for the building of Alberta Pool Elevators. As a result the Pool system covers the Province in a close network.

The same reasons which inspired grain growers to ask for the service and protection of this co-operative system of elevators suggest that petitioners should continue to be extended to them a generous sale.

Butter Production Heavily

This year bids fair to provide a new record production of emergency butter in Alberta. Already for the ten months of the present year an increase of 13 per cent has been recorded, the deliveries of butter to the emergency butter board for the same period of last year. The province's production was in 1933, when over 22,000,000 lbs. was manufactured. The total for this year will likely reach 25,000,000 pounds.

St. Andrew's Parish
The Congregational Baptist Church was held on Friday evening at the church with about 80 persons present. After enjoying the sacrament repeat provided by the ladies, the company was called to order by the pastor, who proposed the toast to the King. The toast to the United Church of Canada was proposed by Rev. R. W. Wood and replied to by Mr. S. G. Cotton. Toasts to Father's Park, community and to other communities were replied to by Mr. E. J. McGowan and Mr. F. E. Malcolm. The visitors were hosted by Mr. W. G. O'Neil. Mr. E. G. McDonald replying. Other speakers were Messrs. S. G. Robertson, who also sang a Scotch song to the huge delight of the audience, and W. E. Hamyshire and Mrs. S. G. Cotton. Mrs. W. J. Clayton sang a solo which was heartily enjoyed, and Mr. R. E. Forster delivered a recitation. A hearty vote of thanks to the Women's Guild for their work, moved by Rev. Wood was replied to by the Guild President. The banquet closed with the singing of And Lang Syne.

ALBERTA TURKEYS
In far away New Zealand, the largest turkey farm in that country has been built up from foundation stock secured from turkey breeders in Alberta, according to information from the provincial poultry department. This New Zealand farm is owned and operated by a woman, Mrs. Katherine Bell, who purchased her breeding stock from Alberta some years ago, she forwards a photograph of her flock recently taken by the governor-general of New Zealand, and she has also placed a further order for breeding stock with the provincial government.

made and there seems little reason to hope that conditions are improving. The only person who operates them is the immediate ex-archbishop, who is now a very young man. After the war, the archbishop and his family were used to claim as the owners what producers of bread and other goods were not allowed to do. This is a serious problem resulting in the adverse effect upon transportation. Under major economic circumstances, the government has been forced to increase agricultural production for export. It may reasonably be expected that the government will soon be forced to have the

Fable of "No Money Islands" Has A Modern Lesson

Castaway Band's Banking Methods Ruined An Eden

EDGEMONT, March 1st.—The fable of "No Money Islands" has a modern lesson. It is a story of a group of men who have been stranded on a remote island. They have no money, and they have no way to get money. They have no way to get money.

The interesting thing about these data is that in the last half of the 1980s there has been an artificial stimulation of demand for Canadian goods and services. This is due to the fact that the Organization for Economic Cooperation and Development Institute has implemented a policy of increasing the number of Canadian goods and services that are imported into the United States but has not done the same for the United States. This has led to a number of trade disputes between the two countries. The United States has been forced to take action to protect its own industries from the influx of Canadian goods and services. This has led to a number of trade wars between the two countries. The United States has been forced to take action to protect its own industries from the influx of Canadian goods and services. CAME HEASON TO U

The annual duck season opened today at the ...

appointed in the Bank of Canada as being members of the staff of the department of finance, and one from the department of justice.

Supposedly big men make some queer statements now and then, and the Hon. E. N. Rhodes is no exception in this regard. In the House of Commons this gentleman made the statement that he had been asked to resign from the Finance. But Mr. Rhodes quite gracefully said to allow Tommy Tomney to manage the newly formed Central Bank of Canada. He said that he was not going to resign from the big game at Ottawa nor was anxious to have the Central Bank privately owned. It is simply this: the directors of the Bank of Canada are not going to resign. The Hon. E. N. Rhodes is of Canada. Some of the big publications in the Dominion are very much disgruntled at not having been supplied with some of the information that he has given. The Hon. E. N. Rhodes is the Governor of Canada's new Bank. People who do not know who Tomney is at all—but the financiers know, as they are in the matter. The *Edmonton Bulletin* comments as follows on this matter:

"Never in the history of Canada has so much responsibility been placed on the shoulders of any man, young or old, as has been placed by Premier Bennett on the young man he has named Governor of the new Bank of Canada. It is a heavy burden. For many years the President, Atty. Gen. and Controller of Sur-

Ignorance of the masses is not the sole reason for the pitiful plight that hangs like a dark cloud over the working and producing classes today. We have often heard it said that women differ in opinion, and we are granting that there are some wise men in the working and producing classes, enough to say, "to differ in opinion." We cannot see much chance for a change in our economic condition until the people have decided about that change. Every person who thinks at all will admit that our condition today is man-made, but not all of them will

agree that it is a man-cured. But that is not the worst part of the problem; the worst phase of it is that some very brilliant people will reject and resent every proposal put forward by those who are honestly and intelligently aware of solutions to the one big problem of the age, poverty. They will refuse to offer any suggestions for change. That is the chief reason why poverty is so slow. Even poverty and distress do not seem to possess sufficient power to make some people think, and this, together with their fear of trying anything new makes it doubly difficult to break away from the beaten path. Present-day financiers must chuckle with glee when they see other intelligent people contending that our present financial and economic systems are "all right."

A young lad from this Province, obtained through a contest, a couple bushels of t. rye. This year he had enough to sow 100 acres. He has just reaped his crop, which sold for 74¢ a bushel, and netted him a return of \$2000.

Anyways we reflect upon these three aspects of civilian economy and recovery will at once appreciate that the debt conversion programme is a vital instrument to ensure Canadian and that, consequently, the success of the 1953 Loan is the personal concern of every man and woman in the Dominion.

The 1953 Loan is a further step in a great national endeavour; taking its success means a further step on the road to recovery. I know that I need not stress the attractiveness of the Loan as the second-passive loan, for the attractiveness will be universally recognized. I do, however, earnestly call upon every citizen of Canada to recognize the limits of these abilities as an opportunity to promote our national welfare. I know of no way in which to thank the Government of Canada for the service to himself and to his country.

The PRACTICAL and the IDEAL

Alberta Public Elevators is a creation of the agricultural concept of this movement and is closely allied to the facilities in the province to better their condition.

It is a movement to improve the life of the farmer by the use of a machine to end the improvement of the living conditions of rural people.

CUMBERSITY IN A FEW

This year we have seen a lot of rain and dry weather in June. It is not that cumbersity is a great, so the weather was followed up by springtime going to get some weather in September and September weather in October. PREVENTION IS CHEAPER THAN CURE

Fire prevention work has come a long way. We did not mention the fact in time it was not drawn to our attention until the current week's issue was of the press. The Right Road To Follow

The grain growers of Alberta can do a great deal in the way of self-help by purchasing Alberta Pool Elevators. The proper ownership of grain handling facilities is with the grain growers themselves.
